Assignment: 31 HTML

Python Web Development in Hindi

MySirG

1. Add a "tooltip" to the paragraph below with the text "Python Web Development in Hindi".

```
<!DOCTYPE html>
<html>
  <head>
    <title>HTML Page</title>
  </head>
  <body>
    <p>Python Web Development in Hindi</p>
  </body>
</html>
```

2. In the form below, add an input field with the type "button" and the value "OK".

3. Inside a form tag, add two radio buttons, both with the name "programming_language".

4. Inside a form tag, add an empty drop down list with the name "food_menu".

5. Inside a form tag, add a text area with the name "note".

6. Inside a form tag, add a submit button with the value "Submit Form".

7. Disable the input field below.

```
<form action="/register">
  <input type="text">
</form>
```

8. Restrict the maximum number of characters allowed in the input field to 10.

Note: You should not include any Javascript

```
<form action="/register">
  <input type="text">
</form>
```

9. Inside form tag, add an input field that accepts only .png files.

10. Add a table row with two table headers. The two table headers should have the value "Index" and "Topic".

Index	Topic
1	Python
2	Javascript
3	Rust
4	Matlab
